Dear Parent,

Greetings!!!

The threat to more people falling prey to the malaria parasite during monsoon season cannot be negated. The school does take all necessary precautionary measures to ensure clean and healthy environment for all. However, it is advisable that boarders use mosquito nets instead of repellents in their dorms for comfortable stay.

In this regard you are requested to give your consent in the *pro forma* attached herewith on or before 30th April 2016 so that children can be supplied with a standardized mosquito net and the amount shall be adjusted through the individual bursary account.

With sincere regards

Principal
